Dallas, Texas 75270

Dear Ms. McKee:

Your letter dated December 4, 1984, (copy enclosed) transmitted to Ms. Smith a listing of Federal Facilities in Region VI initially identified as a potential site or incident insofar as hazardous wastes are concerned. The computer printout enclosed in your letter listed the SPR's West Hackberry site.

It would be helpful to us to have copies of the existing information that led EPA to identify the West Hackberry site. This information would be vital to us for any appraisal we undertake of the situation. Also, we would like to get copies of EPA's hazardous waste site enforcement and response system mentioned in your letter. Your assistance on these information requests is appreciated. If you have any questions about this request, please contact Melissa Smith at FTS 686-4387.

Sincerely,

James K Edwards
